

# The Macroeconomics of Exchange Rate Policies, Tariff Protection and the Current Account: *A Dynamic Framework*

Simon Neaime, American University of Beirut, Lebanon, and Research Fellow, Athenian Policy Forum

## Advance Acclaim

“As the problems of globalization loom ever larger in the international economy, Simon Neaime has produced a timely and interesting volume on the current state of the neoclassical theory of open-economy macroeconomics. This book can be particularly recommended to graduate students needing a concise and accurate overview of the subject, and to economists specializing in other fields who want to bring themselves up-to-date on the recent literature.”

**John Smithin**  
Professor, Department of Economics and Schulich School of Business,  
York University, Toronto

“Professor Neaime has written a very valuable book that documents the recent empirical trends in globalization and also expositis the academic ideas and theories that attempt to explain these trends. The book offers an encyclopaedic wealth of ideas presented with clarity and precision.”

**Anastasios G. Malliaris**  
Walter F. Mullady, Sr. Professor of Business Administration,  
Loyola University, Chicago
